

CONFECTION SUNFLOWER EXPERIMENTAL HYBRIDS

Developed exclusively for Canada

Ex 570309

Maturity: Very Early

Seed Type: Long Type (LT)

570309 is a long-seeded, early maturing, herbicide-tolerant, confection hybrid. 570309 has shown good yield potential and produces seed with exceptional colour and shape suitable for the in-shell market. 570309 has also shown to produce high test weights and nutmeat percentages.

Market: Confection

Trait: ExpressSun®

The ExpressSun® trait provides exceptional weed control of many broadleaf weeds, including Canada thistle, and gives you the flexibility to apply herbicides from burndown to bud formation.

Downy Mildew Resistance: Yes

- Herbicide tolerance
- Yield
- Seed shape & colour
- Test weight

Ex 20057

Maturity: Very Early

Seed Type: Long Type (LT)

20057 is a long-seeded, early maturing, herbicide-tolerant, confection hybrid shown to have exceptional yield potential. This hybrid yields seed with excellent test weight, shape and colour, very suitable for the in-shell market.

Market: Confection

Trait: ExpressSun®

The ExpressSun® trait provides exceptional weed control of many broadleaf weeds, including Canada thistle, and gives you the flexibility to apply herbicides from burndown to bud formation.

Downy Mildew Resistance: No

- Herbicide tolerance
- Yield
- Seed shape & colour
- Test weight

Ex 20306

Maturity: Early

Seed Type: Long Type (LT)

20306 is a long-seeded, early maturing, herbicide-tolerant, confection hybrid. 20306 has shown high yield potential and produces seed with exceptional colour and shape suitable for the in-shell market. 20306 has also shown to produce high test weights and nutmeat percentages.

Market: Confection

Trait: ExpressSun®

The ExpressSun® trait provides exceptional weed control of many broadleaf weeds, including Canada thistle, and gives you the flexibility to apply herbicides from burndown to bud formation.

Downy Mildew Resistance: Yes

- Herbicide tolerance
- Yield
- Seed shape & colour
- Test weight

Ex 200239

Maturity: Early

Seed Type: Long Type (LT)

200239 is a long-seeded, early maturing, herbicide-tolerant, confection hybrid. 200239 has shown exceptional yield potential and produces seed with an excellent colour and shape suitable for the in-shell market.

Market: Confection

Trait: ExpressSun®

The ExpressSun® trait provides exceptional weed control of many broadleaf weeds, including Canada thistle, and gives you the flexibility to apply herbicides from burndown to bud formation.

Downy Mildew Resistance: Yes

- Herbicide tolerance
- Yield
- Seed size, shape & colour

Ex 359239

Maturity: Early-Mid

Seed Type: Long Type (LT)

359239 is a long-seeded, early maturing, herbicide-tolerant, confection hybrid. 359239 has shown exceptional yield potential and produces seed possessing an excellent colour and shape suitable for the in-shell market. 359239 also produces a high percentage of large seed.

Market: Confection

Trait: ExpressSun®

The ExpressSun® trait provides exceptional weed control of many broadleaf weeds, including Canada thistle, and gives you the flexibility to apply herbicides from burndown to bud formation.

Downy Mildew Resistance: Yes

- Herbicide tolerance
- Yield
- Seed size, shape & colour
